Jaipur, Rajasthan — Open to Relocation — Open to Hybrid & Remote Opportunities

SUMMARY

Entry-level Frontend Developer with experience building responsive React applications, integrating APIs, and managing state with Redux Toolkit. Skilled in JavaScript, HTML, CSS, React, Vite, Git, and Postman, with a focus on clean UI, responsive design, and user-friendly web experiences.

EXPERIENCE

GenZ EducateWing

Jul 2025 – Aug 2025

Web Development Intern

Virtual

- Built responsive UI components for a real estate project using semantic HTML, CSS, and vanilla JavaScript.
- Integrated third-party APIs to render property listings and dynamic content with loading states and error handling.
- Worked with designers and backend developers to improve accessibility, responsiveness, and cross-device compatibility.

ToppersNotes

May 2024 – Oct 2025

Chat Support Executive

Jaipur

- Provided timely chat support to users, resolved inquiries, and documented recurring issues to improve processes.
- Collaborated with internal teams to resolve product-related issues and improve user satisfaction.

PROJECTS

Online Library System

2026

- Built a React and Vite application to browse books by category, search by title/author, view book details, and add new books.
- Implemented Redux Toolkit state management, dynamic category routes, form validation, and immediate redirects after adding entries.
- Tech:** React, Vite, Redux Toolkit, React Router DOM, JavaScript, CSS

ShopsyGlobe — E-Commerce Application

2026

- Built a responsive e-commerce SPA using React and Vite with API-driven product listings, search, product detail pages, and dynamic routing.
- Managed cart and search state with Redux Toolkit; implemented quantity controls, item removal, checkout flow, and INR total calculation.
- Tech:** React, Vite, React Router DOM, Redux Toolkit, JavaScript, CSS

YouTube Clone — Full-Stack Video Platform

2026

- Developed a full-stack video platform with user authentication, video feed, watch page, comments, and channel pages.
- Built backend APIs with Node.js, Express, and MongoDB Atlas; created a responsive React frontend with category filters and related videos.
- Tech:** React, Vite, Node.js, Express, MongoDB Atlas, JavaScript, CSS

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Router DOM, Vite, Tailwind CSS

Backend & Database: Node.js, Express.js, MongoDB

Tools: Git, GitHub

EDUCATION

Vivekananda Institute of Technology

2022 – 2026

B.Tech, Computer Science & Engineering

Jaipur, Rajasthan

EXTRA CURRICULAR ACTIVITIES

Participated in a college hackathon on AI in Agriculture; contributed to ideation, rapid prototyping, and presenting a functional prototype under time constraints.
